

Karlie Kloss

## HEAVEN SCENT

When *Victoria's Secret* set out to relaunch its bestselling fragrance of all time, Heavenly, there was one angel who was up to the task of filling former face Gisele Bündchen's wings: Karlie Kloss. The 21-year-old supermodel and burgeoning style icon sat down with *Hello! Canada* to talk scents, sisters and summer vacations.

**Tell us about Heavenly.** It's one of my favourite perfumes. The scent is a mix of white musk, sandalwood, vanilla and white peony. It's a really romantic scent.

**What's your idea of a heavenly day?** Sleeping in, baking some cookies and watching football in my favourite sweats!

**Finish this sentence: If I weren't a model, I...** would be going to school for medicine.

**You studied ballet before becoming a model. Is that still part of your fitness routine?** Recently I've been going to ModelFit, which gives me a great

whole-body workout. Ballet has definitely helped me in my modelling career, especially with posture. It did, however, take me a little while to get used to walking on the runway because I was so accustomed to pointing my toes outward when I danced! [Laughs]

**You're known for your sense of fashion. What items in your closet do you use most?** The pieces that I cherish most in my closet are the bags, belts and accessories from the '70s that my mom has passed down to my sisters and me.

**Did you and your sisters share clothes?** Growing up in a house of four girls, we definitely raided each other's closets. Having sisters just multiplies your options for what to wear every day!

**What's on your travel radar this summer?** I am planning a trip to Morocco in a few weeks and I am so excited to explore all the markets there. ■
